EXPERIENCE

Senior SEO Analyst

May 2026 – Present

Granicus · San Jose, Costa Rica (Remote)

Lead organic growth initiatives for destination and tourism-focused digital experiences across the U.S. market.

Drive technical SEO, content strategy, AI search visibility, performance analysis, CRO collaboration, and enterprise-level optimization across large-scale web ecosystems.

Work cross-functionally with content, UX, analytics, and development teams to improve discoverability, user acquisition, and organic performance through data-driven strategies and scalable SEO frameworks.

Head of SEO (Contractor)

January 2026 – March 2026 (3 months)

Taco Digital · United States

Led SEO strategy and delivery during a fixed-term engagement, overseeing day-to-day execution, prioritization, and process improvements to stabilize output and align with business goals.

Designed and implemented n8n-based automation workflows for SEO and content operations, improving scalability, reducing manual effort, and standardizing delivery.

Developed sales enablement materials (PowerPoint) translating SEO into business impact, defining scope, methodology, and growth opportunities for new-business conversations.

SEO Associate Director

February 2023 – January 2026

Publicis Groupe · Costa Rica

As a Media Delivery Associate Director, I lead the LATAM SEO Delivery team and oversee technical SEO initiatives across large-scale, multilingual websites.

Drive technical SEO strategy with a focus on site architecture, crawlability and indexation, Core Web Vitals optimization, structured data, and rendering behavior across JS- and PHP-based environments.

Lead the adoption of AI-assisted and automated SEO workflows to support technical audits, issue prioritization, and scalable recommendations across markets.

Collaborate closely with engineering, analytics, and content teams to diagnose complex issues, implement efficient solutions, and deliver measurable organic growth for global brands.

Technical SEO Manager

May 2022 – October 2022

Advision Development · Costa Rica

Solved complex Technical SEO challenges across large-scale, multilingual architectures, including PHP- and JavaScript-based technology stacks.

Led technical audits, Core Web Vitals optimization, structured data implementation, log file analysis, and scalable internal linking models to improve organic visibility and crawl efficiency.

Provided technical SEO guidance for offshore/onshore Sportsbook operations, supporting brands such as SportsbookReview.com, BookmakersReview.com, OddsTrader.com, Predictem.com, and others.

Partnered closely with development teams to implement architecture improvements, ensure correct rendering and indexation, and drive measurable performance growth across high-traffic environments.

Senior Technical SEO

May 2021 – May 2022

Advision Development · Santa Ana, San Jose, Costa Rica

Led Technical SEO strategy and execution, optimizing site performance, crawlability, and indexation.

Partnered with development and content teams to implement scalable technical solutions, driving improvements in organic visibility and search performance.

Senior Technical SEO

May 2020 – April 2021

The Strategic Group · San José, Costa Rica

Page speed monitoring and improvement.

Code improvement and optimization (PHP and ReactJS).

On-page optimization (metadata, internal links, etc.).

Implementation, improvement and maintenance of Schema Markup.

Sitemaps.xml and .zip structure optimization.

Highlight: recovered a brand website from an algorithmic penalty caused by a low-quality link purchase.

Senior Technical SEO (Contractor)

February 2018 – April 2020

Tripadvisor · Remote

Code improvement and optimization (PHP).

On-page optimization (metadata, internal links, etc.).

Improved web rendering.

Implementation, improvement and maintenance of Schema Markup.

Sitemaps.xml and .zip structure optimization.

Mid SEO & Web Analytics

February 2016 – February 2018

SBR NetMarketing and Consulting S.A · Santa Ana, Costa Rica

Code improvement and optimization (PHP).

Migration of old site to ReactJS.

On-page optimization (metadata, internal links, etc.).

Improved web rendering.

Implementation, improvement and maintenance of Schema Markup.

Collaborated on Google Tag Manager implementation and exporting data to Data Studio.

Junior SEO

February 2009 – March 2013

DayStar Properties

Basic SEO optimization focused on WP CMS.

Reporting updates to SEO Manager.

Metadata (title/descriptions) optimization.

Competitors audit.
